FACTS UNDER DEMOCRATIC PRESIDENTS

Indisputable facts:

- **Personal disposable income has grown nearly 6 times more under Democratic presidents**
- **Gross Domestic Product (GDP) has grown 7 times more under Democratic presidents**
- **Corporate profits have grown over 16% more per year under Democratic presidents (they actually declined under Republicans by an average of 4.53%/year)**
- **Average annual compound return on the stock market has been 18 times greater under Democratic presidents (If you invested \$100k for 40 years of Republican administrations you had \$126k at the end, if you invested \$100k for 40 years of Democrat administrations you had \$3.9M at the end)**
- **Republican presidents added 2.5 times more to the national debt than Democratic presidents**
- **The two times the economy steered into the ditch (Great Depression and Great Recession) were during Republican, laissez faire administrations and 3rd was at end of Reagan with an S&L bailout, tripling of the debt, doubling government jobs, 96% of all debt now tied to Repubs and/or their policies.**
- **Add to that, did you know...
Republicans got a deal that stopped N. Korea from getting a Nuke...?
and the fact their first reactor was sold to them by a Rumsfeld company?**

Or the way Reagan sold 1500 missiles to Iran illegally?

Or the way it was under Nixon we gave Iran its first nuclear reactor?

Or the fact that Iran had no nuke program until we invaded Iraq (and created an ally for Iran) until Bush & Co. said Iran was next as soon as they got the candy and flowers from Iraq at the end of their 2 month, 2 billion dollar war. Quote Cheney, we'll pay for this war with Iraqi Oil – which was then sold to China?

Or the fact the sanctions against Iran had no effect until Obama and

Hillary got international UN sanctions in place, that even Halliburton violated the Bush Sanctions... LOL..?

Or, did you know that under Bush the Iranis went from almost no centrifuges to 15,000?

- **Under Obama, the Affordable Care Act was implemented, granting health coverage for all people, not just those who could afford it.**
- **Under Obama, the VA was saved against the demands of those who hate the military to disband it and make for-profit hospitals richer for taking care of the life-time disabled veterans**
- **Under Obama, Walter Reed was changed to a hospital instead of left by Bush and Cheney as a roach infest rat haven and now is a top notch facility.**
- **Under Obama, there was an attempt, defeated by the “conservatives” who hate to have the government do anything, to improve infrastructure and replace bridges which are crumbling (two crumpled in the districts of two “conservative” congressmen and they blamed it on Obama when THEY voted against the bill)**
- **Under Obama, the lives of thousands of American Marines, soldiers, sailors, airmen were saved by removing them from a country replete with corruption.**
- **Under Obama, our country went to the aid of those in war torn areas and helped save lives of many who could not otherwise survive.**
- **Under Obama the Dow Jones Averages are the highest ever.**
- **Under Obama the unemployment is at an all-time low.**
- **There are many other things done which you clearly fail to see or just don't want to see.**
- **So, who was the worst ever? The men who had killed thousands in the longest war we ever participated in? The president who gave us the Great Depression? The president who bumbled his drunken way through a few years and let everyone else do the work while he was in a drunken stupor most of the time? Why not study history and learn the facts instead of knee jerk bumper stickers which are un-American and prove you have no intellect to improve?**
